

Code of Conduct international student higher education

Revised 1 August 2014

Preamble

Considering that

Dutch higher education aims to further improve and strengthen international co-operation, and the Netherlands wishes to brand itself abroad as a knowledge society together with its higher education institutions;

Higher education institutions in principle give equal treatment to Dutch and international students, but the provision of information to and care for international students require further regulation in some respects;

The higher education institutions wish to attract good international students and to establish a streamlined and co-ordinated guideline for the relation between international students and Dutch institutions using this Code of Conduct;

It is important for the higher education institutions to give international students a clear and unambiguous picture of the system of higher education in the Netherlands and the education provided in accordance with the description in the Diploma Supplement as determined by the Dutch Ministry of Education, Culture and Science (*Ministerie van OCW*);

Within that framework, the higher education institutions wish to provide clear, accessible and unambiguous information on the quality of the study programme, their position within the Dutch system of higher education, the services and provisions offered to international students, the costs of study and living, as well as the admission requirements for international students;

The higher education institution may only use the Dutch government's internationalisation policy instruments provided that the institution maintains a proper relationship with the international student;

The Dutch government assumes that higher education institutions that subscribe to, implement and support this Code of Conduct act with due care towards the international student;

The Dutch government has decided that the signing of the Code of Conduct by the higher education institutions is a precondition for granting residence permits to non-nationals of the EU/EEA or Switzerland to study at the level of higher education;

Through its offices abroad, the Dutch government supports and provides relevant information to higher education institutions that subscribe to, implement and support this Code of Conduct;

The higher education institutions that subscribe to this Code of Conduct consider it to be a precondition for a proper relationship between the international student and the higher education institution;

By signing this code, the higher education institution is obliged to comply with the obligations set out in the Code of Conduct and to act in the spirit of the Code of Conduct with respect to matters not set out in the Code of Conduct;

In order to achieve the abovementioned objectives, further agreements should be made to have the Code of Conduct be supplementary to the existing legal framework. The existing legal framework includes at any rate Articles 7.28 of the Higher Education and Research Act (*WHW*) and 3.41 of the Aliens Decree 2000 (*Vreemdelingenbesluit*) and Chapter B3 of the Aliens Act Implementation Guidelines 2000 (*Vreemdelingencirculaire*).

The higher education institutions have agreed to comply with the following lines of conduct and acts:

1 ***Definitions***

Agent:

An individual, company or other organisation that, provides services whether or not on a commercial basis, to prospective international students desiring to study in the Netherlands or that provide services to higher education institutions to recruit international students.

Umbrella organisations:

Vereniging Hogescholen, NRTO and VSNU.

Third-country nationals:

International students from other countries than Switzerland or the Member States of the EU/EEA.

Reference period:

The period in which an admitted international student is registered at one and the same higher education institution.

Proportional nominal study load:

The nominal study load for one academic year (registration period).

2 Information provision

- 2.1 The higher education institution provides, amongst others through the website, timely reliable and easily accessible information to international students concerning:
- a. the accreditation of the study programme as referred to in Article 5.2;
 - b. the quality criteria that study programmes must comply with and the internal policies guaranteeing such quality;
 - c. a description of the study programme and the certificate that will be obtained, and the examination regulations (or comparable regulations) or a summary thereof;
 - d. the admission requirements of the study programme, including policies for admission and registration and the associated costs as referred to in Section 3 and 4;
 - e. the language of teaching;
 - f. supplementary charges required by the higher education institution from the international student for the abovementioned services or for services as referred to in Sections 3, 4 and 5;
 - g. the standardization of the student progress as referred to in Section 5, including the agreement request as referred to in Article 4.6;
 - h. this Code of Conduct.

The abovementioned information preferably includes a description of the knowledge and skills that the international student will have acquired after having successfully completed the study programme,.

- 2.2 The information provided by the higher education institution to international students based on this Code of Conduct is to be in English or in the language used in the study programme, or in the native language of the international student.

- 2.3 The higher education institution ensures that its advertising and presentations clearly indicate the nature of the higher education institution and its education programmes. When recruiting international students, it will act in accordance with the rules and standards laid down in the Advertising Code of the Netherlands Advertising Code Commission (Nederlandse Reclame Code Commissie), particularly general code (I) and the special advertising code for courses(II-b). The higher education institution uses a name in the English language that clearly reflects the nature of the institution.

3 Agents

- 3.1 If the higher education institution commissions an agent to recruit international students, the higher education institution will ensure that the agent acts in the spirit of this Code of Conduct. The recruitment process can be contracted out partly or wholly, but the higher education institution remains responsible for the admission of international students.
- 3.2 The higher education institution will conclude a written agreement with anyone granted the competency as an agent to recruit international students and only hires agents who have extensive knowledge of the Dutch higher education system. The higher education institution will not hire agents of questionable integrity and honesty and ensures that its agent has access to current and adequate information of the educational programmes of the institution. The higher education institution immediately takes corrective measures if it becomes aware that an agent is behaving in a negligent, careless or incompetent manner, or is involved in false, misleading or unethical advertising and recruitment, including activities that can damage the good name of Dutch higher education. The higher education institution also regularly informs itself of the experiences of international students.
- 3.3 The international student pays the study costs and any admission fees to the higher education institution or, in case of joint or double degree programmes, to the designated (foreign) higher education institution.
- 3.4 If recruitment or broker costs are to be paid to the agent, the agreement between the higher education institution and the agent must set out who pays these costs to the agent.
- 3.5 The higher education institution will make arrangements with the agent concerning supervision of his acts. Upon request of the National Commission (see Section 7), the higher education institution provides the agreement with agents for inspection. The higher education institution sets out in the agreement with agents that the agreement can be provided to third parties for inspection.

4 Admission to and registration in the study programme

- 4.1 An international student who applies for admission and registration with the higher education institution must demonstrate the required preparatory education, sufficient language skills (see Article 4.2), and diplomas required for admission to the specific study programme. The higher education institution determines the preparatory education requirements prior to the recruitment of international students for the study programme in question and checks prior to admission whether the international student meets the requirements.
- 4.2 With respect to the education it offers to international students, the higher education institution determines the minimum language requirements that the international student must meet and makes sure that he/she actually meets these requirements.

For study programmes in Dutch, the provisions of Article 7.28, second paragraph WHW apply.

For study programmes in English, a minimum of an academic IELTS test with an overall band score of at least 6.0 (six) for the B and M level is required.

For preparatory education with a length of 6 up to 12 months, a minimum requirement of 5.0 IELTS applies; for preparatory education of 6 months or shorter, a minimum requirement of 5.5 IELTS is required.

For the scores of other accepted language tests than IELTS, the table below¹ applies:

IELTS, TOEFL, TOEIC and Cambridge ESOL scores					
IELTS	TOEFL Paper	TOEFL Computer	TOEFL Internet	TOEIC2	Cambridge ESOL
7.5	625	263	113	790	CPE - C
7.0	600	250	100	780	
6.5	575	232	90	720	CAE - C
6.0	550	213	79/80	670	
5.5	525	196	70	620	FCE - C
5.0	500	173	60	600	

- 4.3 Contrary to the provisions of Article 4.2, a higher education institution may exempt international students who have had their preparatory education in English, from having to take a mandatory language test. The National Commission may request that the higher education institution provides a statement from the NUFFIC, confirming that the preparatory education has been followed in the English language.

1 The table is not meant to mutually compare language tests and/or scores. It is only meant to formulate the minimum scores for the accepted language tests referred to for the admission of international students.

2 As long as the modules 'Speaking and Writing' and 'Listening and Reading' were successfully completed.

Furthermore, a higher education institution may exempt an international student from having to take a mandatory language test in case the student obtained a diploma of secondary education in a country listed in the diploma list drawn up on behalf of the associations of institutions of higher education, as published on the website of the Code of Conduct.

In case of an exchange programme for a study in English, in the agreement between the transmitting and receiving institution arrangements are made in respect of the minimum English level of the international student. Upon request of the National Commission, the higher education institution provides the agreement with the transmitting institution for inspection.

The higher education institution for applied science programmes in the area of arts may refer to modified requirements for the level of English language skills. This concerns study programmes registered in the study programmes in the area of arts of the module Language and Culture in the CROHO. With respect to these study programmes, legal supplementary requirements (Article 7.26a WHW) apply, primarily in connection with the required artistic quality. These study programmes assess the English language skills within the framework of the selection process and students are therefore exempted from the obligation to take a language test as described in Article 4.2. In view of the special nature of these study programmes, the examination board determines the desired language level and sets this out in the Education and Examinations Regulations.

- 4.4 If the international student either does not meet the requirements set out by the higher education institution, the higher education institution notifies the international student in writing providing a motivation of any refusal to admit and/or register the international student. The higher education institution also indicates any legal remedies that the international student can resort to with respect to the refusal.
- 4.5 The higher education institution may charge a fee for assessment of language skills, preparatory education, and diplomas. The higher education institution making the admission and/or registration to the study programme contingent on the successful completion of a preparatory year, will ensure beforehand that the international student can be expected to successfully complete the preparatory year.
- 4.6 As part of the registration process, the higher education institution requests the admissible third-country national to agree in writing with the procedure used by the higher education institution to report the third-country national to the IND (whether or not with prior notice), in case the registration is terminated or after having established that the third-country national has not made satisfactory student progress as referred to in Articles 5.5 and 5.6.

5 Offers to and assistance to international students

- 5.1 The higher education institution meets the national legal requirements that apply to the institution.
- 5.2 The institution offers international students only duly accredited degree education, within the meaning of the WHW. Furthermore, education can be offered based on the law of other countries if it has been accredited by an accreditation organization in the higher education area and the decisions of which are recognized by the relevant authorities.

Short term programmes at the level of higher education – not being a preparatory year – may also be offered to international students, as long as they are reducible to accredited programmes which are offered by the same institution.

- 5.3 The higher education institution will ensure that teachers have sufficient command of the language in which the study programmes are being taught.
- 5.4 The higher education institution makes clear which services it provides to international students with respect to obtaining a visa and a residence permit, housing, introduction and assistance. In accordance with Article 2.1, the higher education institution clearly specifies in its information material which services it provides and what the associated costs are.
- 5.5 At the end of each academic year, the institution determines the annual student progress of the international student, except for the exchange student. Satisfactory student progress is considered: 50% (or more) of the proportional nominal study load for a full or partial academic year. Contrary to this, international students must successfully complete the preparatory year.

In case of insufficient student progress, the institution will examine the cause, for instance by conducting a student's progress discussion with a student advisor.

In case the international student does not study at all, does not study enough or cannot handle the level, the IND is notified of the lack of progress of the third-country national within one month after establishing the fact. In case of personal circumstances as referred to in Article 7.51 WHW as well as in Article 2.1 of the WHW Implementation Decree, which can be regarded as valid reasons for unsatisfactory student progress, binding agreements are made with the international student so that the study can be completed in time. In such cases the IND will not be notified of the lack of progress of the third-country national.

Only one exception for not notifying the IND about the lack of progress of the third-country national as a result of the same personal circumstances will be made per reference period.

The institution records any unsatisfactory progress and any personal circumstances as well as, in case of a third-country national, the fact that the IND was not notified.

- 5.6 The IND will be informed as soon as the institution establishes the fact that a third-country national has terminated his/her registration at the institution.
- 5.7 The higher education institution is obliged to actually provide the study programme offered. If the study programme is cancelled for valid reasons, cancellation cannot take place after three months prior to the commencement of the study programme, with the exception of short term courses and customised programmes. If the international student is already in the Netherlands with the objective to follow this study programme, the higher education institution is obliged to find a suitable alternative in consultation with the international student, and to inform the international student which procedures must be followed to that effect.

6 *Register of participating higher education institutions and the tasks and authorities of the Register Administrator*

- 6.1 The higher education institution requests the Register Administrator for inclusion in the Register, and provides the signed Code of Conduct.
- 6.2 The Register Administrator publishes the Register on its website in Dutch and in English. The Rules and Regulations forming part of this Code of Conduct contain further provisions pertaining to the register .
- 6.3 Based on the information provided by the applicant, the Register Administrator decides within a month and informs the applicant in writing of the decision. The application is rejected, if the applicant does not meet the conditions and obligations as referred to in the Code of Conduct, including the accreditation of study programmes by accreditation organisations as referred to in Article 5.2. The application is also rejected if it is submitted before the period as referred to in Article 7.8 has passed.
- 6.4 A higher education institution may either be removed from the Register by the Register Administrator at its own request or by order of the National Commission in accordance with the provisions of Article 7.8. Removal by the Register Administrator also takes place in case an institution has ceased to exist.
- 6.5 The Register Administrator publishes addition to or removal from the Register of a higher education institution on its website, and notifies the IND and NUFFIC about it.
- 6.6 Without prejudice to the other tasks referred to in this Code of Conduct, the tasks of the register administrator consist of:
- a) registering complaints;
 - b) preparing annual reports for approval by the National Commission;
 - c) providing information to parties concerned.

- 6.7 Complaints concerning the Register Administrator can be submitted with the chair of the National Commission, after the internal complaint procedure of the register administrator has been completed.

7 National commission

- 7.1 The umbrella organisations will establish a National Commission and define the competences of this commission. The umbrella organisations appoint members to the National Commission for a (renewable) term of office of three year. By publication on its website, the Register Administrator informs the parties concerned of the composition of the National Commission.

- 7.2 The National Commission is independent and consists of five members. The *VSNU* appoints two members and two substitute members, the *Vereniging Hogescholen* appoints two members and two substitute member and the *NRTO* appoints one member and one substitute member. The National Commission appoints a chair who is not a part of the circle of interested parties.

Should any complaint relate to or originate from a higher education institution that has a member in the Commission, the member concerned steps down and is replaced by a substitute member from another higher education institution.

- 7.3 The task of the National Commission is to monitor compliance with the Code of Conduct and to assess the actions of the higher education institutions in the light of the Code of Conduct. The commission does so by, among other things, dealing with petitions that may be submitted based on the Code of Conduct in accordance with the procedure as described in Section 4 of the Rules and Regulations.

- 7.4 After consulting with the umbrella organisations, the National Commission draws up Rules and Regulations that form an integral part of this Code of Conduct so that the Commission can perform its tasks. These Rules and Regulations also specify the petitions (see Article 7.6) interested parties can submit, how these are handled and what the possible sanctions are if the petition is considered well-founded.

- 7.5 Any party concerned believing that a higher education institution has not acted in accordance with this Code of Conduct can lodge a petition with the National Commission in writing.

Prior to lodging a petition with the Commission, the petitioner first submits the complaint to the competent authority of the higher education institution.

The higher education institution ensures that existing or, if necessary, new internal complaint procedures are available for complaints under the Code of Conduct.

- 7.6 If the petitioner is of the opinion that the higher education institution has not settled a complaint properly or is still of the opinion that the higher education institution does not comply with the Code of Conduct, he/she may submit the reason for the complaint, and the response thereof received from the higher education institution, to the National Commission.

- 7.7 If after hearing the arguments of both parties, the National Commission establishes that a higher education institution does not comply with this Code of Conduct, the Commission informs the higher education institution and the person submitting the request of its decision and any consequences thereof.
- 7.8 If the National Commission decides to remove a higher education institution from the Register, it will also decide on the duration of removal and under which conditions the higher education institution can be included in the register again.
- 7.9 The National Commission notifies the higher education institution, the petitioner, the IND and OCW in writing within one month after its decision has been taken.
- 7.10 The Register Administrator acts as secretary of the National Commission. The secretary informs the Education Inspectorate of all well founded petitions that have been submitted to the National Commission.

8 Commencement date and modifications

- 8.1 The modifications to the Code of Conduct take effect on 1 August 2014.
- 8.2 If a party concerned proposes a modification to the Code of Conduct because of legislative requirements, or when modifications to the Code of Conduct are desirable or necessary for other reasons, the proposed modification is submitted to the umbrella organisations. Modifications can only be effective after the National Commission has given its approval based on recommendations by the umbrella organisations, unless mandatory legislation prohibits this. The Register Administrator ensures publication of the modification and distribution of the modified Code of Conduct.
- 8.3 Every five years, the content and operation of the Code of Conduct is evaluated by, in any event, the institutions involved, the parties concerned and the Register Administrator. On the basis of this evaluation, the Code of Conduct, whether changed or not, will be adopted and signed by the higher education institutions. The initiative for the evaluation will be taken by the National Commission.
